

8 life improving benefits

Cleaner, better-tasting water
Can water be tasty? It sure can! With eSpring™ you'll notice an improvement in the taste, smell and clarity of your water immediately!

99,99%

of disease-causing bacteria and viruses and 160 contaminants including over 145 potential health effecting contaminants are removed.

> 250

granted or pending water treatment patents worldwide, pioneered by industry-leading engineers and scientists.

Certified as the best
Amway introduced the first kitchen water filtration system to use a carbon block filter, ultraviolet light and electronic monitoring technology combined in a single unit.

Directly from the tap
Forget bottled water or jug-type filters! eSpring provides all of your family's daily water.

5,000 liters

of pure, clean water can be delivered by eSpring from a single cartridge – or a whole year's supply of clean water!

1st

system to combine a US-patented combination of carbon block and UV lamp technologies, coupled with advanced electronic monitoring.

20 years

of research resulted in the development of eSpring.
